NEW TRAVEL GUIDES TO ENGLAND

The UK Government has recently announced several changes relating to entry requirements for arrivals into England.

From 04 October, the existing tiered 'traffic light system' for determining entry requirements to the UK will be replaced with a simpler, two-tiered system. This new system will see a reduction in the number of destinations categorized as 'red' and an expanded list of 'none-red' destinations. Also, from this date, a pre-departure Covid-19 test will no longer be required for fully vaccinated (COVISHIELD only) adults and children under 18 who are not vaccinated, returning from a non-red country. However, a 'day 2' PCR test will still be mandatory upon entering the UK. For updated information please consult with our travel experts.
